FOOD, PHARMACEUTICAL AND COSMETIC INDUSTRY

In sensitive areas, such as the production of food and beverages, the pharmaceutical industry and the production of cosmetics, strict hygiene standards and regulations apply.

That is why surfaces, machines and equipment in these areas of industry must be thoroughly and hygienically cleaned on a regular basis. Cleanliness and hygiene are also very important requirements when it comes to maintenance and repairs.

Only special products that meet the highest standards can be used on machines and systems in these sensitive areas.

WEICON offers various solutions for production, cleaning, maintenance, repair, and servicing in the fields of food production, the pharmaceutical industry and the production of cosmetic products.

A large number of WEICON products comply with the high hygiene standards in these areas and provide various safety certificates and approvals. Whether **NSF registrations**, **ISEGA certificates**, **WRAS approvals**, **DVGW approvals** or **BAM certificates** - our product range offers you the right products for your operational processes and applications.

TECHNICAL SPRAYS AND LIQUIDS

Lubricants, Release Agents and Anti-Corrosion Agents

Silicon-Fluid

NSF H1
Registration 140821

excellent sliding and separating effect |
temperature resistance from
-30°C to +250°C | NSF-H1 registration

► 400 ml
11351400

Video

Bio-Fluid

NSF H1
Registration 138193

high lubricating effect and good
capillary action | high-purity medical
white oil | NSF-H1 registration

► 200 ml 11600200
► 500 ml 11600500
► 5 L 15600005

Rust Loosener-Fluid

NSF H1
Registration 140821

penetrates into the smallest cavities |
secures the function of mechanical
parts and electrical contacts | protects
against corrosion and oxidation

► 400 ml
11154400

W 44 T® -Fluid

NSF H1
Registration 138193

resin and acid-free | excellent penetration
properties | lubrication, water displacement,
corrosion protection, cleaning and
conservation in one product

► 400 ml
11253400

Spray-on Grease H1

NSF H1
Registration 140821

white grease, high-temperature-resistant |
odour- and tasteless |
NSF-H1 registration

► 400 ml
11541400

Anti-Seize Assembly Spray High-Tech

NSF H1
Registration 140821

white assembly paste |
metal-free | NSF-H1 registration

► 400 ml
27050400

Zinc Spray

NSF H1
Registration 138193

long-term cathodic corrosion
protection | paintable | >1050
in the salt spray test according
to DIN EN ISO 9227 | NSF approval

► 400 ml
11000400

Zinc Spray bright grade

NSF H1
Registration 138193

long-term cathodic corrosion
protection | bright colour shade
matching hot-dip galvanization | NSF approval

11953058

Multifunctional spray head for
exact dosage in areas difficult
to access

NSF®

With our selection of food-grade technical sprays and liquids, we ensure that you get the right products for your production, maintenance and repair processes, which meet your requirements in terms of both quality and safety. We have developed a wide range of special products for a large variety of applications that meet the high standards of NSF International.

These products can be used in sensitive areas, such as food production facilities, the food and beverage industry as well as in the pharmaceutical and cosmetics industries.

for sensitive areas

PTFE-Fluid

Nonfood Compounds
Program Listed H2
Registration 152620
NO FOOD CONTACT

repels dirt, dust and water | resistant against oils, greases and many chemicals | NSF-H2 registration

► 400 ml
11301400

Video

Top-Lube-Fluid

Nonfood Compounds
Program Listed H2
Registration 152617
NO FOOD CONTACT

particularly adherent and pressure-resistant | noise-damping and water-repellent | prevents elongation, friction and wear

► 400 ml
11512400

Stainless Steel Care A7 NEW

Nonfood Compounds
Program Listed A7
Registration 160294

cleaning, protection and care of brushed, matt and polished stainless steel surfaces in sensitive areas

► 400 ml
11591400

TECHNICAL SPRAYS AND LIQUIDS

Cleaning Agents

Fast Cleaner

pH-neutral and material-compatible | can be used on many different materials such as metals, glass, ceramics and most rubbers and plastics | NSF-A1 registration

► 500 ml 11212500
► 5 L 15215005

Industrial Cleaner

powerful special cleaner with high yield | ingredient content of 95 %

► 500 ml 11215500

Foam Cleaner

for the food industry | universally applicable | NSF A1 registration

► 400 ml 11209400

Video

Metal-Fluid

for matt and polished surfaces | for stainless steel, ceramics, glass, plastics, wood | NSF-A7; C1 registration

► 400 ml 11580400
► 5 L 15580005

Video

Workshop Cleaner

free of solvents | biodegradable

► 5 L 15205005

Universal Spatula white

10953008

Special spatula for the gentle removal of the most diverse contamination and residues. Suitable for use in the food industry.

EU Regulation 10/2011/EC plastics with food contact.

Occupational Safety

Citrus-Reiniger

proven effect according to
DIN EN 1276 and 1650

cleans various materials* |
supports the disinfecting effect |
evaporates without residue

► 400 ml

11217400

* The material compatibility should be should
beforehand on an unseen surface area.

Hand Protective Foam

grease-free and waterproof
protective film | "invisible glove"

1-COMPONENT ADHESIVES AND SEALANTS

CYANOACRYLATE ADHESIVES

WEICON **Cyanoacrylate Adhesives** are cold-curing 1-component adhesives, free of solvents.

They bond within seconds almost all materials to and among each other, such as metals, glass, wood, plastics, ceramics, leather and rubber.

ELASTIC ADHESIVES AND SEALANTS

Today, **elastic adhesives and sealants** are used in many areas of industrial production and assembly. They combine the advantages of adhesive bonding and sealing technology and are used wherever the elasticity and the sealing of a joint are the most important requirements.

PLASTIC METAL

WEICON GL-S NEW

Flowable | mineral-filled | wear protection | control layer | temperature-resistant up to +180 °C

The epoxy resin system WEICON GL-S provides high abrasion resistance and serves as wear protection for heavily used surfaces. It is flowable, spreadable (can be applied with a paint brush), has a high initial strength, is mineral-filled, and resistant to chemicals. WEICON GL-S is also well-suited for creating a system structure in combination with WEICON Ceramic BL.

IN COMBINATION WITH
WEICON CERAMIC BL

**PERFECT AS
CONTROL LAYER**

WEICON Ceramic BL

Flowable | mineral-filled | extremely wear-resistant | temperature-resistant up to +180 °C

WEICON Ceramic BL is filled with silicium carbide and zirconium silicate, resistant to chemicals and offers extreme wear protection as well as high abrasion resistance. The epoxy resin system is particularly suitable for lining heavily stressed pump casings, as wear protection for slide bearings, chutes, funnels and pipes, and for the repair of castings, valves and fan blades. The product can be used in mechanical and plant engineering, apparatus engineering and many other areas of industry. Wear-resistant top coating for all plastic metal types.

to leaflet M 031-1 "List of nonmetallic materials
compatible with oxygen"
(DGV information 213-078) of BG RCI

Assembly Pastes

ANTI SEIZE

for highly stressed parts
even in high temperature applications

temperature resistance

-40°C to +1.400°C

metal-free

WEICON Anti Seize "High-Tech" is high-temperature-resistant, has an exceptionally good release effect, is metal-free, material-neutral and has an NSF registration.

Anti Seize "High-Tech" is especially suitable when metal-containing pastes can cause electrolytic reactions, nickel-containing products should or may not be used for health reasons, and dark products are unsuitable for optical reasons.
